

DGS PLAYER TRACKING SYSTEM

The DGS player tracking system is a system designed to keep track of players and players bets; the accounts are designed so that a player can wager both at a location and Online.

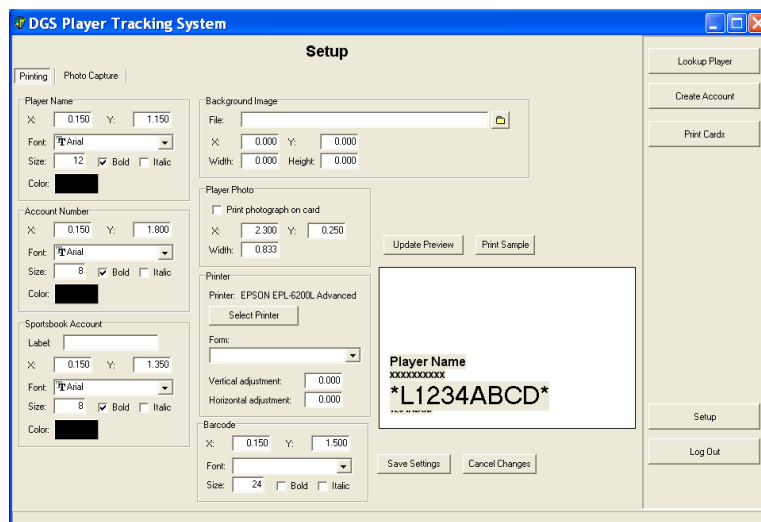

Login

Users login and password.

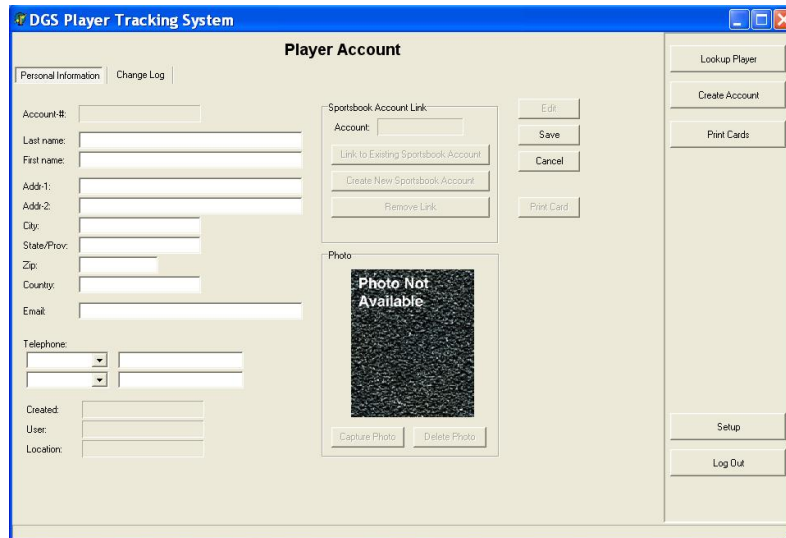

Setup

Setup player Card design. Locate Player info on card, Photo capture, Background image, Printer settings, etc.

Create Account

Enter player information and create account.

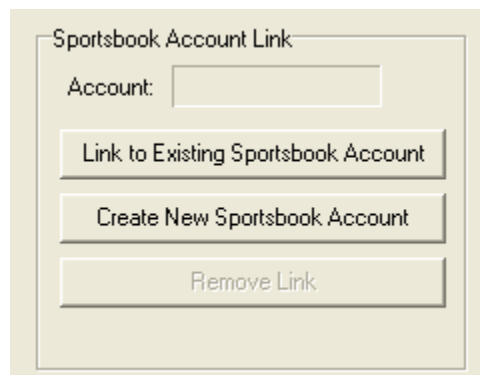

The screenshot shows the 'DGS Player Tracking System' window with the 'Player Account' tab selected. The window is divided into several sections. On the left, under 'Personal Information', there are input fields for Account #, Last name, First name, Address (Add-1, Add-2), City, State/Prov., Zip, County, Email, Telephone (with a dropdown), Created, User, and Location. In the center, the 'Sportsbook Account Link' section includes an 'Account' input field, buttons for 'Link to Existing Sportsbook Account', 'Create New Sportsbook Account', and 'Remove Link', and a 'Photo' section with a placeholder image labeled 'Photo Not Available' and buttons for 'Capture Photo' and 'Delete Photo'. On the right, there are buttons for 'Edit', 'Save', 'Cancel', 'Print Card', 'LookUp Player', 'Create Account', 'Print Cards', 'Setup', and 'Log Out'.

Sportsbook Account Link

If desired you have the option to link the account you've created in the player tracking system to an existing sportsbook account, or, create a new sportsbook account.

This will allow the player to wager Online also.

This is a close-up of the 'Sportsbook Account Link' section from the previous screenshot. It features an 'Account' input field, followed by three buttons: 'Link to Existing Sportsbook Account', 'Create New Sportsbook Account', and 'Remove Link'.

Once you've created an account you have to send it to print. (**Print Card**).

Print Cards

When you are ready to print a card you can go to Print Cards. A list of all the cards ready for printing will appear.

The screenshot shows a window titled "DGS Player Tracking System" with a sub-header "Print Player Cards". The main area contains a table with two columns: "Account #:" and "Name:". The table lists two entries: "536A5DE9" with name "Obando, Luis" and "38D07D32" with name "Gates, Bill". On the right side of the window, there is a vertical toolbar with buttons labeled "Lookup Player", "Create Account", "Print Cards", "Setup", and "Log Out".

Account #:	Name:
536A5DE9	Obando, Luis
38D07D32	Gates, Bill

Lookup Player

Player search; By Name, By Account #, By Sportsbook Account.

The screenshot shows a window titled "DGS Player Tracking System" with a sub-header "Lookup Player". At the top, there are three tabs: "By Name", "By Account #", and "By Sportsbook Account". Below the tabs, there are input fields for "Last name:" and "First name:", followed by a "Find" button. The main area contains a table with two columns: "Account" and "Name". On the right side of the window, there is a vertical toolbar with buttons labeled "Lookup Player", "Create Account", "Print Cards", "Setup", and "Log Out".

Account	Name

- **Player:** *Player Tracking System.*

When a company has an online operation as well as a phone operation that can be combined with the physical operation (EPOS) the player tracking system plays a big part.

The player tracking system is for transferring funds from an established account to a physical walk-up location.

When a bettor requests to use his already established balance from his sportsbook account in the walk-up location the manager will then provide him with a “player card” which will contain the player’s information and balance and link any transfers to the sportsbook account.

Acct #: displays the random number generated by the epos location (no relation with the sportsbook account).

Name: displays the player’s name.

Sportsbook link: links the EPOS account with the sportsbook account.

Avail. Balance: show the sportsbook available balance.

Photo ID: show the player’s photo.

USD: multi currency.

Remove Account: cuts the connection between the EPOS and the sportsbook account.

Account Deposit: for deposits made for the sportsbook account thru the Point of Sale.
