Client window #2

Displays the following: all sports windows (to view events and lines) on the left side of the screen, some of the player's balance information on the top right of the screen, the flag message in the mid right and all betting options on the bottom right of the screen.

Sports windows: you may use the mouse to find a specific sports window by clicking on the sports short name list on the screen, another option is to use the keyboard to press the function keys – NFL (F5)... – assigned to each sport.

NOTE: in the sports windows the user will read lines and select the teams desired for the wagers.

Leagues: the user may only want to look at a specific league under the specified sport window and can do so by selecting the desired league from the drop down box. i.e.: NFL Halves, Total season wins, etc.

The screenshot displays the 'Client 3.0.7' application window. At the top left, there's a 'League:' dropdown menu set to 'NBA'. The main area is divided into two tables of sports lines. The first table, 'NBA GAME LINES - JANUARY 08', lists games between New York and Cleveland, and Denver and San Antonio. The second table, 'NBA GAME LINES - JANUARY 10', lists games between Golden State and Toronto, Portland and New York, Indiana and Phoenix, Miami and Seattle, and Houston and Denver. Below these is a table for 'NBA REGULAR SEASON WINS GAME LINES - APRIL 15' listing various teams like Atlanta RSW, Boston RSW, etc. On the right side, there's a 'Player ID: TEST' and 'Password: 123' section, a 'Currency: USD' and 'Type: Gold' section, and a 'HISTORY WAGERS' section. A 'TEST ACCOUNT' section is also visible. At the bottom right, there's a betting section with 'Wager Type: Straight Bet', 'Team / Play: [dropdown]', 'Wager Amount: [input]', and a 'Free Play (\$119)' checkbox. The bottom of the window has buttons for 'Refresh', 'Pitcher', 'Open Play', 'Call Last Bet', 'If Win', and 'If Action'.

Player ID: displays the player's ID.

Password: displays the player's password.

Currency: displays the player's currency.

Type: displays the player type assigned to the player.

Max Wager: displays the player's maximum wager amount per bet.
At Risk now: displays what the player has at risk at the moment from bets not yet saved.
New available balance: displays the player's new available balance if the bets being placed would be saved.

History (button): takes the user to the player's history window.
Wagers (button): takes the user back to screen #1 where he can give the customer the "readback". (see **NOTE*****)

Message (blank space): the user will be able to see the flag message from this screen.

Wager display box: this space will display the selected events for the wager as it is being placed.

Sport: displays the events assigned sport.

Description: displays the event/team name.

Points: displays the points/spread of the selected team/event.

Odds: displays the odds of the selected team/event.

Wager Type: this drop down box displays all wager types available for the player (straights, parlays, teasers, if bets, etc). The user may select the desired wager type before entering the teams/events for the wager.

Team/Play: the user may use this space to search for an event or a team by entering the first characters or the full name or number of the team/event.

Open: this button will add an OPEN SPACE to a play; if allowed. The user may also enter an open space to a play by typing the word "open" in the Team/Play box.

Wager Amount: the user will enter the wager amount of the play.
NOTE: *the number/amount the user enters is automatically the "wager amount"; if the amount is specified by the player as the "risk" amount the user will enter an "r" before the amount, and, if the amount is specified as a "win" amount the user will enter a "w" before the amount.*

Free Play (...): will display the "freeplay" amount the player has available.

NOTE: when entering a "freeplay" the user will have to check the box after selecting the team/event of the play, then specify the amount of the desired in the "wager amount" box.

Refresh: the user will click here - or press "F12" - to refresh any line changes.

Pitcher: the user will select the pitcher type option (listed, home, visitor, same, action) for the wager.

Open Play: this option is for closing open plays. The user will first enter the team/event desired (like entering any straight bet) then click on this button - which will display all open wagers for the player to choose from - and click on the desired play to close or add the new selection to the play. When the play is confirmed ("ok") the system will automatically save the closed bet and take the user to the Open Wagers screen to verify that the wager is correct.

Call Last Bet: this action will call the last entered wager.

NOTE: in the case of straight bets it will call all straight bets made consecutively; in the case of any other wager types it will only call the last one.

If Win: this option is for making **If win only Bets** off of **Pending Wagers**. The user will first enter the desired bet with the amount (like entering a normal wager) then click on this button which will display all pending wagers available for the customer to if off from; the user will select the desired wager and click "**OK**"; the complete new *If bet* will be sent to the **New Wagers** screen for confirmation and will then have to be saved again.

If Action: Same as "If Win" but following the If Action Rules (=if win, tie or cancel).
